Build an array for each problem below. Use 2-Color Counters, Snap Cubes ${ }^{\circledR}$, cereal, or another household item.

Draw the array and complete the division sentence.
Arrange 30 counters in groups of 3 .
$\qquad$ $\div$ $\qquad$ $=$ $\qquad$
$\square$
Arrange 25 counters into groups of 5 .
$\qquad$ $\div$ $\qquad$ $=$ $\qquad$
$\square$
Arrange 45 counters into groups of 9 .
$\qquad$ $\div$ $\qquad$ $=$ $\qquad$
$\square$
Arrange 32 counters into groups of 8 .
$\qquad$ $\div$ $\qquad$ $=$ $\qquad$
$\square$
Arrange 28 counters into groups of 4.
$\qquad$ $\div$ $\qquad$ $=$ $\qquad$
$\square$
Arrange 40 counters into groups of 8 .
$\qquad$ $\div$ $\qquad$ $=$ $\qquad$
$\square$
Arrange 18 counters into groups of 3 .
$\qquad$ $\div$ $\qquad$ $=$ $\qquad$
$\square$
Arrange 42 counters into groups of 6 .
$\qquad$ $\div$ $\qquad$ $=$ $\qquad$
$\square$
